The venue for all these activities will be in Westbridge School and the specific time schedule for some of the activities will be determined depending on the number of interested participants.

You can make the reservations for your son by contacting the school’s business office (320-7442/ 5000-200) on or before March 31.

We also encourage your son to spend time reading good books during the summer months. Our past graduates have shared that avid readers tend to excel in entrance exams for universities. This success is attributed to stronger comprehension skills, a broader vocabulary, and improved focus during written examinations. Aside from the activities above, we are sending you a reading list which can easily be bought from the bookstores.

Thank you and have a great and productive summer.

Very Truly yours,

Dennis Adolacion  
Executive Director
